

Please do not weaken the No-Call List program in Wisconsin, or in any other state. Please consider consumers/citizens/voters before giving in to corporate/business interests. What is your job, and whom do you serve? You are the government, elected by the people, paid for by taxing the citizenry. Your job is to assist and protect the public, that is the PEOPLE. Your job is not to roll over on your back everytime a big corporation pushes your button.
